

# *TRAVEL GUIDE FOR PEOPLE WITH REDUCED MOBILITY*

## *Iceland*

# HOW TO USE THIS GUIDE?

This guide is a concentrate of useful information. The pictograms fit into this logic to get straight to the point. For tourist attractions you will find more detailed information.

Maximum occupancy in accommodation

Walk in shower with shower chair

Number of steps

Adjusted sink

Toilets for the disabled

Ramp or water lift

Grab bar next to the toilet

All terrain wheel recommended

Parking space for the disabled

The absence of pictogram means that the place is accessible, that there is no obstacle to the visit.

# ***SUMMARY:***

**1. General  
informations**

**2. Prepare your  
trip**

**3. Main  
attractions**

**4. Accessible  
accommodations**

**5. Recommended  
restaurants and  
bar**

**6. Accessible  
pharmacies**

# ***GENERAL INFORMATION***

## ***SOME FACTS:***

- 364,000 inhabitants in 2020
- 60% of the Icelandic population is of Viking descent
- 30% of Icelandic people believe in elves
- 10,000: the number of waterfalls and hot springs
- 130: the number of active volcanoes
- 11% of the island is covered in glaciers.

## ***CURRENCY AND EXCHANGE RATE:***

The official currency of Iceland is the Icelandic Krona (ISK).

- 1 american dollar = 142 ISK
- 1 australian dollar = 101 ISK
- 1 dollar canadien = 106 ISK
- 1 livre sterling = 176 ISK

Subject to price changes.

## ***IMPORTANT NUMBERS:***

- Australian embassy: +354 575 6500
- British embassy: +354 550 5100
- Canadian embassy:
  - office hours: +354 575 6500
  - in case of emergency out of office hours: +613 996 8885 or +613 996 1310
- United States of America embassy: +354 595 2200
  
- International dialing code for Iceland: +354
- Emergency number: 112
- Non-emergency number police: 444 4444
- Roadside assistance: 1770

## ***DRIVING IN ICELAND:***

- Right-hand drive.
- Speed limited to 90 km/h outside built-up areas, 80 km/h on unpaved roads and 50 km/h in town.
- No drink driving, zero tolerance.
- You must always drive with your lights on, day or night.
- Refuel regularly, service stations are infrequent depending on the region.
- Consult the road.is website to know the condition of the roads in case of snow.

## ***CLIMATE:***

Each season has its charm and interests, there are 3 of them:

- In winter (November to March), the climate is quite harsh, especially in the center and north of the country with an average temperature of 0°C.
- In summer (June to August), the climate is a little milder with an average temperature of 12°C.
- Mid-season (April, May, September and October) is a good compromise to avoid the influx of tourists and enjoy a reasonable climate.

It is important to note that the Icelandic climate is changeable and unpredictable, so it is important to prepare accordingly.

## ***WHEN TO VISIT ICELAND:***

Iceland offers a wide variety of tourist experiences throughout the year, each with optimal visit times.

- The Northern Lights: the best times to observe them are between September and April, when the nights are longer and darker.
- Whale watching: usually runs from May to September, when the waters are warmer and the whales migrate to Iceland's shores to feed.
- The observation of puffins: it generally extends from March to August, when these birds come to nest on the Icelandic coasts.
- The midnight sun: to observe days without night, a week before and after June 21. You will also be able to see the lupins in bloom at this time.

# ***PREPARE YOUR TRIP***

## ***INDISPENSABLE DOCUMENTS:***

- Valid identity card or passport
- Disability card
- Parking card for people with disabilities
- Driving license
- Prescription for medical treatments

## ***VISA:***

Americans, Australians, British and Canadians have visa-free access to Iceland for up to 90 days. Check if you need a visa on the following website: [click on this link](#)

## ***HEALTH:***

It is recommended to be up to date with your vaccinations. The rules to access the territory in relation to the Covid change regularly, it is advised to consult the website of the embassy of your origin country in Iceland.

If you are an european citizen, remember to apply for your European health insurance card. It will allow you, in the event of an unexpected health problem, to have access to health professionals and hospitals in the country visited at the same price.

Some bank cards include insurance that can cover unexpected medical expenses. I advise you to inquire.

You can take travel insurance to cover unforeseen medical costs, but also loss or theft of luggage, etc.

If you need to see a doctor, go to a health center (heilsugæslustöð) which are often open from 8 a.m. to 4 p.m.

## ***ELECTRICITY:***

Voltage and frequency in Iceland are the same as in Australia and the UK (230V, 50Hz), so you can use all your devices only with an adaptor.

Americans and Canadians will need to use an adaptor. Check your devices: if they do not have the words 'INPUT: 100-240V, 50/60 Hz' you will need a transformer.

## ***AIRPORT:***

Iceland has an international airport in Keflavik close to Reykjavík. It is perfectly equipped to accommodate people with reduced mobility.

## ***ASSISTANCE AT THE AIRPORT:***

If you choose to fly, remember to ask for assistance no later than 48 hours before your trip. This service is free for anyone with reduced mobility. It allows you, depending on your needs, to benefit from a companion to move around the terminals, to check-in and check-in your luggage, to get to the plane, to embark, to settle on board, but also to leave the plane, collect your luggage and accompany you out of the airport.

## ***CAR RENTAL:***

Hertz has an accessible vehicle ideal for power wheelchair users: [click on this link](#)

## ***PARKING:***

You are allowed to park in a parking lot on a disabled spot if you have a parking card for people with disabilities.

# MAIN ATTRACTIONS

In order to properly locate the places we are going to talk about and not miss anything, remember to save each location in Google Maps. So you will have an overview!

## REYKJAVÍK:

The Icelandic capital is pleasant to visit, it will only take you a few hours to go around it. It is a very good base camp to explore the Reykjanes peninsula.

### *The rainbow street and street art:*

Location: [click on this link](#)

In opposition to wild nature, street art offers a colorful break.

### *Hallgrímskirkja church:*

Location: [click on this link](#)

The architecture of this Lutheran church is inspired by Icelandic nature such as basalt organs and glaciers.

It is possible to climb to the top of the tower but the windows are too high for a wheelchair user to enjoy the view. Unless you hoist yourself up on your arms.

## *The sun voyager:*

Location: [click on this link](#)

This sculpture represents a Viking ship heading towards the setting sun. It is probably one of the best places in town to see the Northern Lights.

Accessibility:

- No relief
- Asphalt ground

## *Sky Lagoon:*

Location: [click on this link](#)

This man-made spa is one of the most beautiful on the island, offering a panoramic view of the ocean.

Accessibility:

- Parking space for the disabled
- Accessible cloakroom and Accessible toilet
- Ramp and wheelchair to go into the water

## *The many museums of the city:*

The Icelandic Phallological Museum

Location: [click on this link](#)

National Museum of Iceland

Location: [click on this link](#)

Reykjavík Maritime Museum

Location: [click on this link](#)

Whales of Iceland

Location: [click on this link](#)

Art Museum Kjarvalsstaðir

Location: [click on this link](#)

Perlan

Location: [click on this link](#)

# REYKJANES PENINSULA:

Often considered a place of transit between the airport and the capital, it is often shunned by tourists. There is much more to discover there than the geothermal spring of Blue lagoon.

## *Seltún:*

Location: [click on this link](#)

This place has an important geothermal activity, you will find there the most visible forms of volcanic manifestations of the Reykjanes peninsula.

Accessibility:

- Low relief
- Floor made of wooden walkway

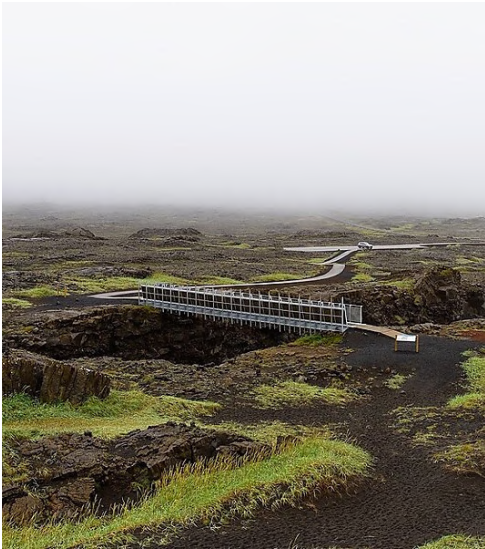

## *Blue Lagoon:*

Location: [click on this link](#)

This place has an important geothermal activity, you will find there the most visible forms of volcanic manifestations of the Reykjanes peninsula.

Accessibility:

- Parking space for the disabled
- Accessible cloakroom and toilet
- Ramp and wheelchair to go into the water

## ***Bridge between two continents:***

Location: [click on this link](#)

The footbridge spans a very real but also symbolic canyon, which represents the limit between the European and North American tectonic plates.

Accessibility:

- Low relief
- Concrete floor then wooden walkway

## ***Hvalsneskirkja church:***

Location: [click on this link](#)

Dating from 1887, this church stands out for its style, built in stone with colorful ornaments.

Accessibility:

- Low relief
- Ground made of compacted gravel then smooth cobblestones

## ***Viking World:***

Location: [click on this link](#)

This museum houses 4 exhibitions dealing with the Vikings, the colonization of Iceland and Norse mythology.

Accessibility:

- Parking space for the disabled
- Accessible toilet

# GOLDEN CIRCLE:

The Golden Circle is a concentrate of Iceland just 45 minutes from Reykjavik, it includes several spectacular sites: waterfalls, national park born of geological activity, geysers and craters...

## Accessibility:

- Parking space for the disabled
- Accessible toilet at P1, P2 et P5
- Relief marked in places that can be avoided thanks to the different car parks
- Ground made of compacted gravel and wooden walkways in places

## ***Þingvellir National Park:***

The national park is a major historical and geological site of Icelandic heritage. It is here that the oldest parliament in Europe was founded.

Parking is free for people with reduced mobility, remember to communicate your license plate to the reception.

We advise you to visit the parc in this order:

- Park at P1: visit the exhibition at the park reception and enjoy the view of the east bank.  
Location: [click on this link](#)
- Park at P4: going towards the church, you can see the Flosagjá fissure.  
Location: [click on this link](#)
- Park at P2: admire the Drekkingarhylur waterfall and wander among the rock formations.  
Location: [click on this link](#)

## ***Geysir:***

Location: [click on this link](#)

This natural curiosity is one of the most appreciated in Iceland, its geysers can spring up to a height of 40 meters.

## Accessibility:

- Accessible toilet at Geysir Center restaurant
- Soil made of compacted dirt and gravel
- Low relief
- All-terrain wheel and assistance recommended

## ***Gullfoss:***

Although it is not the highest nor the most powerful waterfall, one quickly becomes aware of the force of nature in this place.

There are two possible views of the waterfall:

- Upper level for a stunning view.  
Location: [click on this link](#)
- Lower level to be closer to the waterfalls.  
Location: [click on this link](#)

Accessibility:

- Parking space for the disabled at both levels
- Accessible toilet at Gullfoss Panorama restaurant
- Both levels have a low relief
- Floor made of wooden walkway then compacted gravel

## ***Kerid:***

Location: [click on this link](#)

If you dream of reaching the top of a volcano, this is the place for you. This crater is home to a lake and has surprisingly bright colors.

Accessibility:

- Marked relief
- Floor made of concrete then wooden terrace
- Assistance recommended

## ***Hjalparfoss:***

Location: [click on this link](#)

This double waterfall is a hidden gem in the golden circle. It is possible to approach it to appreciate it at best.

Accessibility:

- Marked relief
- Floor made of compacted gravel
- All-terrain wheel and assistance recommended

## ***SOUTH COAST:***

This region of the country is known for its natural beauty and diverse landscapes. It is home to an impressive concentration of sites that are among the most popular in the country.

### ***Lava Center:***

Location: [click on this link](#)

This museum is dedicated to Iceland's incredible volcanic activity. Learn everything there is to know about what has shaped this island over millions of years.

Accessibility:

- Parking space for the disabled
- Accessible toilet

### ***Seljalandsfoss:***

Location: [click on this link](#)

60m high and thanks to its west orientation, you will have the chance to see rainbows on sunny afternoons.

The car park isn't free.

Accessibility:

- Parking space for the disabled
- Accessible toilet
- A bit of relief closer to the waterfall
- Ground made of compacted gravel

## Skógafoss:

Location: [click on this link](#)

This waterfall is considered one of the most beautiful places in the country. What strikes in this place, it is the proximity to which one can approach it.

Accessibility:

- No relief
- Ground made of compacted gravel, the closer you get to the waterfall bigger are the stones
- All-terrain wheel recommended

## Sólheimajökull:

Location: [click on this link](#)

You have to take a short hike of 800 meters to reach the viewpoint on this jagged expanse of ice.

A small portion is impassable by electric wheelchair unless you have a small ramp.

Accessibility:

- Marked relief
- Ground made of compacted earth and pebbles
- All-terrain wheel and assistance recommended

## Dyrhólaey:

Location: [click on this link](#)

This site offers several striking viewpoints from the top of its cliffs, notably on the black sand beach and the volcanic arch from which it takes its name.

This nature reserve is closed in May and June to preserve the puffins that come to nest there.

Accessibility:

- A bit of relief
- Floor made of earth and compacted pebbles with large pebbles in some places
- All-terrain wheel and assistance recommended

## *Reynisfjara view point:*

Location: [click on this link](#)

The unusual color of this beach is due to the decomposition of the still hot lava in the icy ocean. It then turns into sand and pebbles polished by erosion.

Accessibility:

- Disabled parking space
- Accessible toilet
- Marked relief
- Floor made of concrete then compacted or loose pebbles
- All-terrain wheel and assistance recommended

## *Reyniskirkja church:*

Location: [click on this link](#)

This panorama from the heights of Vik has already been seen from all angles but still has a positiv effect when one sees it

Accessibility:

- No relief
- Floor made of compacted gravel

## *Gígjagjá:*

Location: [click on this link](#)

The cave is located in the Hjørleifshöfði mountain and is often called Yoda's cave because of the shape of its entrance.

Accessibility:

- Low relief
- Floor made of compacted sand and pebbles

## *Fjaðrárgljúfur:*

This 9,000 year old canyon is as breathtaking as its name is unpronounceable. It is 1300 meters long and only a few meters at the narrowest point.

There are several ways to enjoy this canyon:

- From the bridge:

Location: [click on this link](#)

Accessibility:

- A bit of relief
  - Ground made of compacted dirt and gravel
  - All-terrain wheel and assistance recommended
- By the upper car park: if there is no snow, it allows you to reach the highest (and most beautiful) viewpoint avoiding the drop. It is also possible to go down to viewpoints 2 and 1, you will have to pick up the person with reduced mobility by car at the bottom car park in this case.

Location: [click on this link](#)

Accessibility:

- A bit of relief
  - Ground made of compacted dirt and gravel
  - All-terrain wheel and assistance recommended
- By the main car park: this last possibility should only be considered if the upper car park is closed. It requires the assistance of several people in good physical condition to climb slopes over 10%.

Location: [click on this link](#)

Accessibility:

- Very marked relief (nearly 100 m elevation)
- Ground made of compacted dirt and gravel
- All-terrain wheel and assistance mandatory

Depending on the weather, the ground can be very muddy but does not prevent the visit.

## ***Skaftafellsjökull:***

Location: [click on this link](#)

The 1.5 kilometer hike allows you to get a fantastic perspective of this glacier tongue without being able to get closer to it in a wheelchair.

Accessibility:

- Parking space for the disabled
- Accessible toilet
- A bit of relief
- Ground made of compacted and loose gravel in some places
- All-terrain wheel and assistance recommended

## ***Jökulsárlón lagoon:***

Location: [click on this link](#)

The Jokulsarlon lagoon was created in the 1930s by melting from the Breiðamerkurjökull glacier, many icebergs float and drift towards the ocean.

Accessibility:

- Parking space for the disabled
- Accessible toilet
- A bit of relief
- Ground made of compacted gravel and pebbles
- All-terrain wheel recommended

## ***Diamond beach:***

Location: [click on this link](#)

This beach bears its name in reference to the blocks of ice passing through the Jökulsárlón lagoon. The latter being connected to the ocean, the "diamond" take this path and are brought back to the beach by the waves.

Accessibility:

- No relief
- Ground made of gravel and then concrete

## ***Stokksnes:***

Location: [click on this link](#)

Although Stokksness beach is not accessible, there are many points along the road which offer sublime views of this black beach, its grassy dunes and the Vestahorn mountains.

There is a charge to enter.

Accessibility:

- Disabled parking space at Viking Café
- Accessible toilet at Viking Café
- Low relief
- Ground made of compacted dirt, gravel and pebbles

## ***EAST COAST:***

This region is the most isolated and least touristic. Although its visit is pleasant, we advise you to go there only if you go around the island.

### ***Bláa kirkjan and its colorful street:***

Location: [click on this link](#)

The main attraction of Seyðisfjörður is its Lutheran church and colorful street.

Accessibility:

- No relief
- Asphalt ground

### ***East Iceland Heritage Museum:***

Location: [click on this link](#)

This museum explains the history of the eastern fjords, from colonization to today, and reindeer, a species present in the east of the country.

Accessibility:

- Accessible toilet

## ***Vök Baths:***

Location: [click on this link](#)

This spa, naturally heated to 41°C, is one of our favourites. In winter, the view of the frozen lake is magnificent.

Accessibility:

- Parking space for the disabled
- Accessible cloakroom and toilet
- Ramp and wheelchair to go into the water

## ***Moira canyon:***

Location: [click on this link](#)

Just 20 minutes from Egilsstaðir is the Moira canyon through which flows the Jökulsá á Brú river. The pedestrian bridge at the end of the walk offers a very beautiful view.

Accessibility:

- A bit of relief
- Soil made of compacted gravel
- All-terrain wheel recommended

# MÝVATN LAKE:

The Lake Mývatn area is one of the most visited places in Iceland due to its rich wildlife and diverse geological features.

## *Viti crater:*

Location: [click on this link](#)

The Viti crater, which means hell in English, is nearly 300 meters in diameter and is home to a changing color lake.

It is possible to simply enjoy the view from the parking lot or to start the loop on the right side.

Accessibility:

- A bit of relief
- Floor made of compacted soil
- All-terrain wheel and assistance recommended

## *Námafjall Hverir:*

Location: [click on this link](#)

The earth with orange, yellow and gray colors, the fumaroles and this arid landscape transport you to another planet.

Depending on the weather the ground can be muddy.

Accessibility:

- No relief
- Floor made of compacted soil
- All-terrain wheel recommended

## ***Dimmuborgir:***

Location: [click on this link](#)

The legend indicates that a troll family lives in this lava field. You may have the opportunity to meet them.

The routes marked on the map in blue, yellow and red are wheelchair friendly. The others have not been tested.

Accessibility:

- Parking space for the disabled at Kaffi Borgir
- Accessible toilet at Kaffi Borgir
- Relief marked at some places
- Floor made of asphalt or compacted soil
- All-terrain wheel and assistance recommended

## ***Skútustaðagigar:***

Location: [click on this link](#)

These craters were born from an explosion that occurred following contact between a lava flow and the water of the lake.

Both loops are accessible:

- SK1 is 1.5 km long.
- SK2 is 3 km long.

Accessibility:

- Relief marked at some places
- Ground made of stabilized gravel
- All-terrain wheel and assistance recommended

## ***Mývatn Nature Baths:***

Location: [click on this link](#)

The water from the hot springs is known to treat skin and respiratory problems thanks to the sulfur and minerals present in the water. However, the smell of sulfur is very strong.

Accessibility:

- Parking space for the disabled
- Accessible cloakroom and toilet
- Ramp and wheelchair to go into the water

## ***NORTH COAST:***

This part of the island has impressive natural sites, however these are quite far from each other. This is not the region that we would advise to visit in priority.

### ***Goðafoss:***

Location: [click on this link](#)

This waterfall impresses with its arcuate shape and its flow, it is closely linked to Icelandic history, and more precisely to the time of Christianization.

Accessibility:

- Parking space for the disabled on both sides
- Relief marked at some places
- Asphalt ground
- Assistance recommended

### ***Geothermal Sea Baths:***

Location: [click on this link](#)

It is the only spa using sea water heated by geothermal activity. The infinity pool with mountain views is impressive.

Accessibility:

- Parking space for the disabled
- Accessible cloakroom and toilet
- Ramp allowing a transfer on the edge of the basin (see the bottom left corner of the photo)

## ***Húsavíkirkirkja church:***

Location: [click on this link](#)

This wooden church in the style of Swiss chalets is only to be seen from the outside, it is the most beautiful building in the city.

## ***Húsavík Whale Museum:***

Location: [click on this link](#)

This museum opened in 1997 by a non-profit organization is one of the most visited of the country. It houses several skeletons including one of a blue whale 25 meters long.

Accessibility:

- Accessible toilet

## ***Observation of cetaceans:***

Location: [click on this link](#)

Húsavík is often considered the whale watching capital of Europe.

Gentle Giant offers excursions with more than rudimentary accessibility but does its best to make the experience easier for you.

The entrance to the boat is very narrow, the staff is there to pass the wheelchair over and transfer you to it.

The excursion lasts approximately 4 hours and there are no accessible toilets on board.

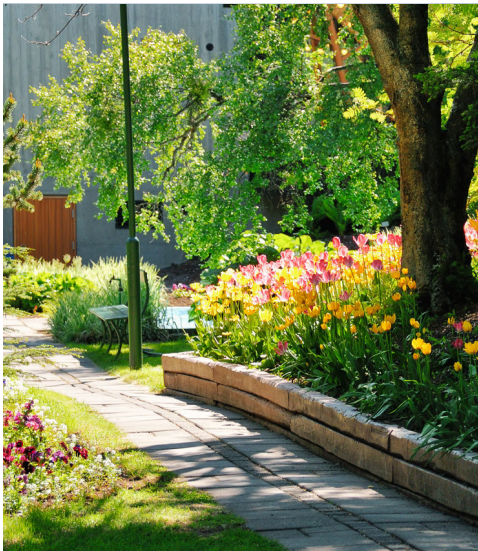

## ***Akureyrikirkja church:***

Location: [click on this link](#)

This Lutheran church which overlooks the city houses a large organ with more than 3000 pipes.

Accessibility:

- Parking space for the disabled
- The church is on the side of a hill, reach it by car to avoid a steep drop.

## ***Akureyri botanic garden:***

Location: [click on this link](#)

This garden offers a wide variety of plants and flowers only from June to September due to the climate of North Iceland.

Accessibility:

- Parking space for the disabled at the North and South entrances
- Accessible toilet at Café LYST
- Relief marked at some places
- Paved or compacted gravel ground

## ***Akureyri city museum:***

Location: [click on this link](#)

This museum is one of the newest on the island, it gives pride of place to the works of new national and foreign talents.

Accessibility:

- Accessible toilet

## ***Route along the North Fjords:***

Location: between Akureyri and Vidhvik

This road which follows the coast offers magnificent landscapes, it is well worth the hour of detour.

## ***Museum of the battle of 1238:***

Location: [click on this link](#)

Immerse yourself in the age of the Sturlungar, the bloodiest period in Icelandic history.

Accessibility:

- Disabled parking space
- Accessible toilet

## ***Hvítserkur:***

Location: [click on this link](#)

This basalt monolith formed by a lava crack, then sculpted by erosion, recalls the shape of an elephant.

Depending on the weather the ground can be muddy.

Accessibility:

- Ground made of dirt
- A step then a bit of relief
- All-terrain wheel and assistance recommended

## ***Icelandic Seal Center:***

Location: [click on this link](#)

This independent museum offers an exhibition on seals, which are numerous in the north of the country.

## ***Kolufossarfoss:***

Location: [click on this link](#)

This place offers a very beautiful view of the waterfall flowing into the Kolugljúfur canyon.

Accessibility:

- A bit of relief
- Ground made of dirt and gravel

# SNAEFELLSNES PENINSULA:

Located 2 hours north of Reykjavik, this peninsula is nicknamed "Little Iceland" because of the wide range of landscapes and attractions it offers. A real favorite !

## ***Shark museum:***

Location: [click on this link](#)

This museum details the process of preparing fermented shark. For Icelanders it is an exceptional dish, while outside the island it is known as one of the most disgusting dishes in the world. You can taste it at the end of the visit, it's not that bad!

Accessibility:

- Ramp available to enter

## ***Kirkjufell and Kirkjufellfoss:***

Location: [click on this link](#)

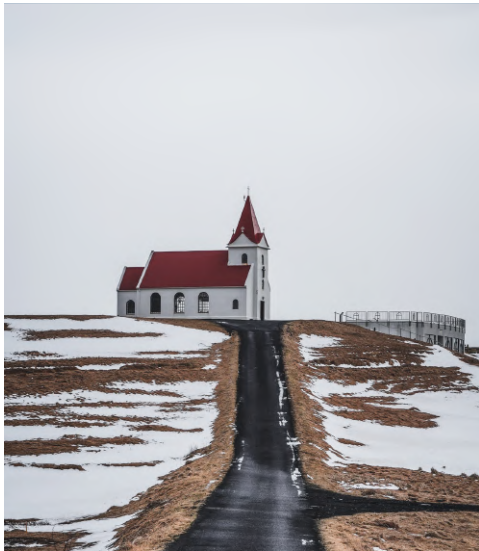

The mountain with its particular shape and at its feet this waterfall are part of the emblematic landscapes of the island.

There is a fee to park the car.

Depending on the weather the ground can be muddy.

Accessibility:

- Parking space for the disabled
- Marked relief to have a view of the waterfall
- Ground made of compacted earth then stabilized gravel
- Assistance highly recommended

## ***Ingjaldshólskirkja church:***

Location: [click on this link](#)

This pretty church is enhanced by the colors of nature and offers you a 360° view of the surrounding landscape.

Accessibility:

- No relief near the church
- Ground made of asphalt and stone slab

## ***Svörtuloft lighthouse:***

Location: [click on this link](#)

Located on the tip of the peninsula, you may be lucky enough to spot whales. The view of the Saxholsbjarg cliffs will amaze you.

Accessibility:

- A bit of relief
- Floor made of wooden walkway

## ***Gestastofa Visitor Center:***

Location: [click on this link](#)

The visitor center has an interesting exhibit on nature and the remains of the fishing camp.

Accessibility:

- Parking space for the disabled
- Accessible toilet

## ***Lóndranger:***

Location: [click on this link](#)

The different viewpoints allow you to have a breathtaking panorama of the coast and its spectacular cliffs.

Accessibility:

- Marked relief
- Ground made of stabilized gravel and viewpoints with wooden terrace
- All-terrain wheel and assistance recommended

## ***Gatklettur and Arnarstapi cliffs:***

Location: [click on this link](#)

As you follow the path along the coast, you can see the waves crashing against the atypically shaped rock formations.

Accessibility:

- A bit of relief
- Ground made of stabilized gravel and viewpoints with wooden terrace
- All-terrain wheel and assistance recommended

## ***Budakirkja church:***

Location: [click on this link](#)

The charm of this church lies largely in its color: black! Whatever the season, it is highlighted in the middle of the landscape.

Accessibility:

- No relief
- Ground made of compacted gravel

# ACCESSIBLE ACCOMMODATIONS

# RECOMMENDED RESTAURANTS AND BARS

Given the overall cost of the stay, if there is one area where you can save money, it is food. We took canned meals to limit expenses. Glass jars are not recommended to limit the risk of break in the suitcase. However, you will find very good accessible restaurants, of which here is a non-exhaustive list.

## REYKJAVÍK:

**Sjávargrillið:**

Location: [click on this link](#)

**BrewDog Reykjavik:**

Location: [click on this link](#)

**Hlemmur Marhöl:**

Location: [click on this link](#)

**Einstok Bar:**

Location: [click on this link](#)

**Perterson Svítan Rooftop:**

Location: [click on this link](#)

## REYKJANES PENINSULA:

**LiBRARY bistro/bar:**

Location: [click on this link](#)

**hjá höllu:**

Location: [click on this link](#)

## GOLDEN CIRCLE:

**Friðheimar:**

Location: [click on this link](#)

This surprising place could have appeared in the attraction section! The tables are set in a greenhouse, in the middle of the tomato plants. It is imperative to book.

**Mika Restaurant:**

Location: [click on this link](#)

**Hotel Gullfoss:**

Location: [click on this link](#)

**Restaurant Minilik:**

Location: [click on this link](#)

## ***SOUTH COAST:***

**Matarlyst Cafe-Restaurant-Bar:**

Location: [click on this link](#)

**The Soup Company:**

Location: [click on this link](#)

**Wok On Vik:**

Location: [click on this link](#)
